About Me

I am an enthusiastic recent animation graduate, who specialises in stop motion. I enjoy working as a part of a team and I am confident and capable to work on solo projects. I'm looking to gain experience working within the stop motion industry and to also further my knowledge in model and set building. Though I would ideally like to be working mainly in stop motion I am also happy to work in other areas as well. I am competent in different software but I'm willing to learn anything additional to that if the project requires it.

Experience

January - May 2015
NHS Child Safety Video
A group project working from a brief
Client - NHS health visiting team
based in Worcester

April - May 2015
NHS Alcoholism
A group project working from a brief
